

## Plastic Bollard Sleeve.

### Suggested Uses.

- Cover damaged or scratched bollards to make them look like new.
- Protect new bollards from getting scratched or damaged - reduce maintenance.

### Benefits.

- Made from durable HDPE with UV inhibitors. Surface will not crack or peel when used outside.
- Comes with 2 strips of red tape per sleeve.

### Installation.

- Lay 2 x foam strips (included) over the bollard to be covered. Slide the sleeve over the bollard.
- Client-supplied fixings can be added to prevent the sleeves from being removed.

### Specifications.
