Included	1 x Belt Unit and 1 x Wall Receiver Clip (includes 4 x screws for mounting bracket and 2 x screws for mounting Receiver Clip)

Overview.

The Wall Mount Retractable Belt Unit offers a compact and heavy-duty solution for quickly blocking access to restricted areas.

Easily mount the unit to a wall or pallet racking, then pull the belt to the included wall receiver clip to lock it off securely. Designed for indoor use, the unit is compatible with additional accessories and our freestanding stanchion systems for flexible setup options. Choose from multiple belt colours to match your environment or safety requirements.
