Belt Length Options

5m (49-WBM5), 10m (49-WBM10)

Indoor Use

Yes (not waterproof).
See 49-WBY for Indoor/Outdoor Option

Overview.

Vanguard's Magnetic Retractable Hazard Belt is a quick-deploy, temporary safety solution designed to prevent unauthorised access to hazardous areas.

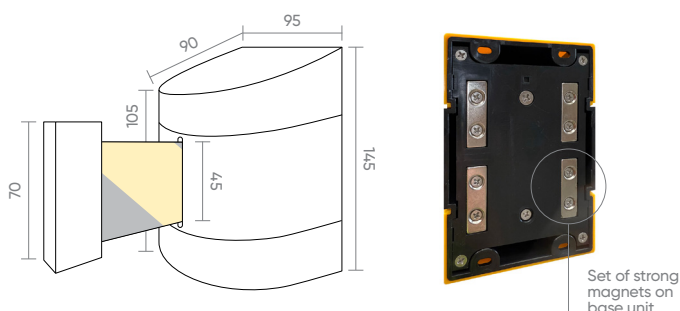

This lightweight unit features a high-visibility black and yellow belt in 5m or 10m lengths. Strong magnets on the base and belt end allow quick attachment to pallet racking, forklifts, and other steel surfaces—ideal for temporary hazard control.

Designed for short-term use, it's perfect for blocking aisles or doorways during forklift operation. The magnetic setup enables fast deployment and removal, ensuring flexible safety management in busy environments.
