

# Premium Wheel Stop – 1830mm

## Suggested Uses.

- Disability carpark or other situations where parking spaces are wider than standard.
- Prevent vehicles from travelling into other parking spaces or surrounding assets, vehicles or people.
- Make your carpark look tidy and professional

## Benefits.

- Hi-vis chevrons create good visibility and make the wheelstop less likely to be a trip hazard.
- One man lift for cost effective and easy installation
- Heavy duty recycled plastic – more durable than standard rubber wheel stops

## Specifications.

| Length      | 1830mm                      |
| Weight      | 14kg                        |
| Fixings     | 3                           |

## Installation.

### 49-CF12150: Concrete Surface

Drill 12mm dia x 150mm deep hole into concrete, clear out dust, insert bolt and tighten.

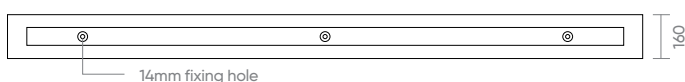

### 49-FR12: Asphalt Surface:

Position the wheel stop, drill 14mm dia pilot hole through the asphalt, then drive spike through.
